

Geography: We would have been learning about local coastlines. Activities at home to support this.

- Look at coastlines on Google Earth
- Compare two local coast lines
- Research a coast line in a different country and compare to North East coastline
- Features of a coast line (human and physical features)
- Write a fact file of the features of a coast line

Key vocabulary: beach, cliff, coast, port, harbor, shop.

Maths: We would have learnt about measuring mass and capacity. There is a White Rose unit in the Summer 1 learning pack. Cooking is a great way of teaching this unit.

Please also use White Rose's Home learning site. They are doing daily lessons on fractions. This is great revision. Starting from week 1, please see

<https://whiterosemaths.com/homelearning/year-2/>

PE: In PE, we would have been learning dance. Choosing your own music, can you create a seaside dance, acting like the ocean?
Include: A range of height and speed and 2 balances.

Music: Please use Yumu, which is part of Charanga to practice singing and recorder. There are units of work on there alongside games.

RE: In RE, we would have been learning about Judaism. Please could you do the following activities at home:

- Find out about festivals such as Hanukkah, Sukkot and Purim

Answer questions:

- What is a Torah?
- Who are the key people in the Hebrew Bible?
- What is Shabbat? What do Jews do on Shabbat?
- What special objects do Jewish people have in their homes?

Once you have the answers, create a fact file all about Judaism.

Year 2 Summer 1 Seaside

In Art: We would have looked at local artists and created our own seaside painting. Look at artists like Barbara Bowden, Tony Erskine and Trudy Kepke for inspiration.

Computing: We would have been learning about coding. You could write instructions to get a member of your family from one room to another with commands such as 3 steps forward, stop, turn left. Please use Purple Mash to supplement ICT.

In Science: We would have been learning about animals and living things. I have included lesson and activities on the following:

- Life Cycles
- Stages of human life
- Animals and their offspring
- What humans and animals need to survive
- Food hygiene
- Exercise
- Healthy eating
