

Subtraction: single digit from a teens number

$17 - 3 = \square$

$19 - 5 = \square$

$18 - 6 = \square$

$15 - 2 = \square$

$17 - 1 = \square$

$19 - 2 = \square$

$14 - 1 = \square$

$18 - 7 = \square$

$16 - 3 = \square$

$18 - 3 = \square$

$15 - 4 = \square$

$13 - 2 = \square$

Make 13.

Subtraction: single digit from 20 and a teens number

$10 - 3 = \square$

$10 - 6 = \square$

$10 - 8 = \square$

$10 - 4 = \square$

$20 - 3 = \square$

$20 - 6 = \square$

$20 - 8 = \square$

$20 - 4 = \square$

$20 - 2 = \square$

$20 - 1 = \square$

$20 - 7 = \square$

$20 - 9 = \square$
